

## Please offer *Homefree treats!*

**Food buyer:** Please offer Homefree cookies. They are delicious and wholesome for everyone, and also include people with food allergies and sensitivities. My family loves Homefree cookies and would like to be able to purchase them from you. Homefree treats are:

- Made in a dedicated bakery free of peanuts, tree nuts, eggs, dairy, wheat, and gluten, with carefully sourced and allergen tested ingredients. The Good Housekeeping Research Institute recommended them as the "Best Gluten Free Cookies" nationally!
- Perfect for lunch box snacks: They're healthy, include everyone, and kids love them. They were featured on *Today* as a recommended school snack!
- Inclusive of people with other special dietary needs too, and a delicious choice for everyone who wants a healthful snack. Homefree treats are: Certified vegan, kosher pareve, a good source of whole grain, and non-GMO verified, with nothing artificial. Also, Homefree is the kind of company I want to support. They are a Certified B Corporation for their strong commitment to social and environmental responsibility.

I understand that shelf space is limited, but Homefree cookies uniquely are delicious for everyone, healthy for everyone, and super inclusive of those with special diets, and the need for "free from" products is growing. Research indicates that 1 in 13 children in this country have food allergies, and this doesn't even include those who seek gluten-free products. If you put Homefree treats on the shelf I will help spread the word to help other families discover them too!

For distribution or other information, you can contact [sales@homefreetreats.com](mailto:sales@homefreetreats.com), call 800-552-7172, or visit Homefree at: [www.homefreetreats.com](http://www.homefreetreats.com).

Thanks so much!
